

Views: Spatial Data Access Subscription

Enjoy real-time streaming of imagery directly to your desktop.

An ArcXML and OGC WMS imagery service, Views: Spatial Data Access Subscription is accessible in many applications including ESRI, MapInfo, Google Earth and all proprietary oil and gas applications. A subscription to Views opens access to the Valtus Imagery library and delivers imagery as you need it – where you need it.

Views:

- ▶ Standards based – no plug-ins
- ▶ Projection, scaling and mosaics on the fly
- ▶ 24/7 availability
- ▶ Annual subscription based pricing with unlimited use

Easy to Use, Easy to Manage

Boost productivity and increase the returns on your organization's imagery investments. With Views, users can begin incorporating imagery directly in their existing tools and workflows with little to no training.

Views' administration tools allow you to control access (including access duration and transactions) for both internal and external users.

Valtus Imagery Library:

- ▶ High resolution digital aerial photography
- ▶ Satellite imagery – DigitalGlobe, LandSat 7
- ▶ Extensive coverage in Canada and the United States
- ▶ Additional content added on a frequent and consistent basis

Subscribe for Unlimed Views

Pricing for Views: Spatial Data Access Subscription includes unlimited viewing and plotting. To learn more or receive a quote, please contact the authorized reseller listed below.
