

Press Release

Divestco Revolutionizes Seismic Interpretation

September 30, 2014, Calgary, AB (TSX-V: DVT)

Divestco Inc. is pleased to announce the launch of Glass™, a brand new seismic interpretation solution. [Glass™](#) is an evolution of interpretation speed and precision and revolutionizes the ease with which interpreters work. Built on modern platforms and technologies, with a foundation of tried and true science, the advanced user interface designed provides an intuitive workflow with all the power of a full blown interpretation system.

The key features of Glass™ include:

Speed: Leveraging decades of experience in advanced line tying and signal matching, Glass continues to improve the speed with which you can manually or automatic pick and tie your data.

Precision: With a GIS based map, Glass ensures precise and accurate coordinate conversions. Interactive horizon and grid calculators allow interpreters to better analyze their area of interest.

Innovation: With a brand new user interface, Glass is designed with interpretation workflows and creative ways of interacting with data. Whether working alone or with a team, iPad integration and other unique features allow Divestco to continue exploring new ways of making your work easier.

The industry is evolving, why shouldn't you?

Mr. Stephen Popadynetz, CEO commented: "Glass is disruptive technology for geophysicists. The integration of mobile and tablet technologies not only simplifies the method of interpretation but immerses the geophysicist in his workflow like never before. Geophysical interpretation is about to undergo a seismic shift!"

About the Company

Divestco provides innovative geoscience solutions to Energy and Service companies worldwide. Our customers predominantly operate in geology, geophysics, land and engineering and we work with our clients to ensure they have the right solutions, at the right time, to help them make more informed decisions. Commitment, innovation, accountability and agility form the cornerstone of our values and enable us to consistently provide reliable solutions and exceptional, personalized service in all of the core areas in which we operate. Divestco provides Software & Data, Seismic Processing, Geomatics Services, Seismic Data & Brokerage, and Land Services. Divestco is headquartered in Calgary and trades on the TSX Venture Exchange under the symbol "DVT".
